

COMPRENDRE ET UTILISER LA NOTION DE FRACTION

✓ Corrections

EX 1

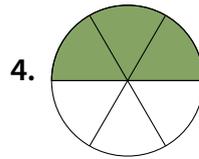

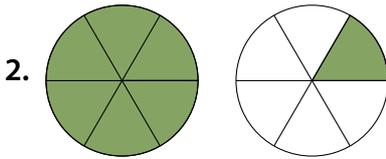

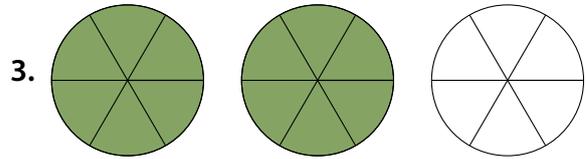

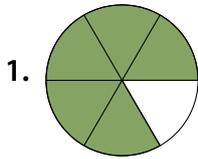

1. $\frac{2}{3}$

2. $\frac{1}{5}$

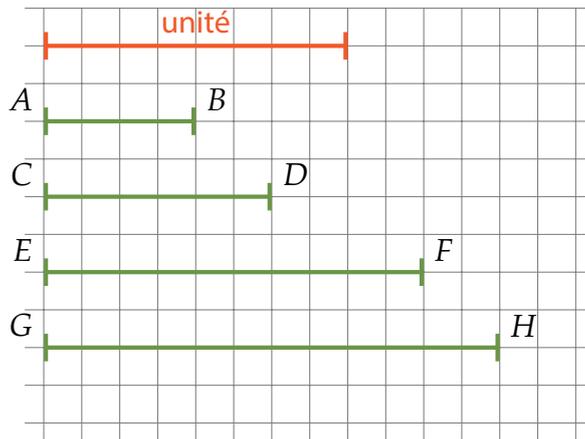

3. $\frac{3}{4}$

4. $\frac{3}{2}$

EX 2

EX 3

COMPRENDRE ET UTILISER LA NOTION DE FRACTION

EX 4

1. 2 unités :

2. $\frac{1}{2}$ de l'unité :

3. $\frac{1}{4}$ de l'unité :

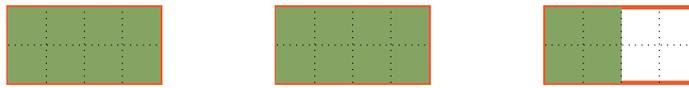

4. $\frac{1}{8}$ de l'unité :

5. $\frac{5}{4}$ de l'unité :

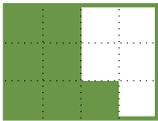

6. $\frac{5}{2}$ de l'unité :

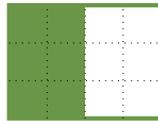

7. En se servant des coloriages précédents, on peut classer les nombres demandés dans l'ordre croissant : $\frac{1}{8} < \frac{1}{4} < \frac{1}{2} < \frac{5}{4} < 2 < \frac{5}{2}$

EX 5

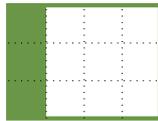

$\frac{7}{12}$:

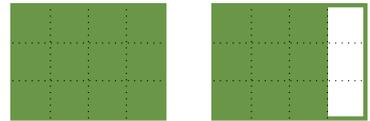

$\frac{1}{2}$:

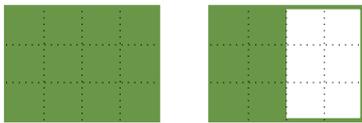

$\frac{1}{4}$:

$\frac{7}{4}$:

$\frac{3}{2}$:

Donc finalement : $\frac{1}{4} < \frac{1}{2} < \frac{7}{12} < \frac{3}{2} < \frac{7}{4}$
